

New RGB controller

We would like to inform you that we need to replace the RGB controller for our coffee machines model series C14C and C14G. The cause is a delivery stop of a component from the supplier. In future all Aequator C14G and C14G coffee machines will be manufactured with the new RGB controller.

RGB controller

Art. No. 1005044

NEW version

Old version

The new RGB controller is fully backwards compatible for the affected coffee machine series under considering that the cable strands are plugged in correctly. New order is blue, **green**, **red** compared to the old it is blue, **red**, **green**. Existing spare parts on stock (old version) can be still used.

This change was implemented in **August 2022** and machine number **6802207012**.

We thank you for your understanding and if you have any further questions, please do not hesitate to contact us.
